Forever Bee Pollen®

Pollen is the fertilizing dust of flowers. Bees gather and bring it back to their hives for food. Without pollen, plants, trees and flowers could not exist; even we depend on it.

Forever Bee Pollen is gathered in specially-designed stainless steel collectors from the blossoms that blanket remote, high desert regions. This ensures the freshest and most potent natural food. Forever Bee Pollen is all-natural and contains no preservatives, artificial colors or flavors.

Bee pollen contains a wide spectrum of nutrients to help maintain good health. These include all vitamins of the B-complex and vitamin C. Since these are water soluble, they can be taken daily. Bee pollen also contains vitamins D, E, K, and Beta Carotene (vitamin A), plus numerous minerals, enzymes and coenzymes, plant-source fatty acids, carbohydrates, proteins, and 22 amino acids - including all eight 'essential' amino acids that the body cannot manufacture for itself. Bee pollen is one of the most complete foods available.

Bee pollen also contains Lecithin, which exists naturally in all cells and aids in the metabolism of fats. The nutrients in bee pollen are readily digestible

and easily absorbed by the human body. Forever Bee Pollen may assist in maintaining a healthy circulatory, digestive, immune, and nervous system.

INGREDIENTS
Bee Pollen 500mg

OTHER INGREDIENTS:
Honey, Stearic Acid, Silica and Royal Jelly.

CONTENTS
100 tablets

SUGGESTED USE
Begin by taking 1/4 tablet daily, then gradually increase intake to one tablet three times a day. Consult your physician before taking this or any other dietary supplement.
